4 December 1987

JUDGE:

RE: Your proposed remarks to the  
DS&T Career Development Course  
11 December 1987, 0930 Hrs.

You are scheduled to address the 15 participants in the Directorate of Science and Technology's Career Development Course on 11 December in your conference room. The course, which began on 14 September, will end on 11 December. The course is designed for officers in the middle grades, GS-12 through GS-15, who have been identified as having potential for advancement to senior positions. Although most of the enrollees are S&T officers, there is at least one representative from each of the other three directorates.

25X1 [redacted] the course coordinator, will escort you into the conference room at 0930. Your remarks might include some general comments about the Career Development course (a syllabus is attached), a look at challenges facing the DS&T followed by an exchange with the course members concerning their experience in the directorate, and a statement of what is to be emphasized under your leadership. This approach will appear in the attached outline.

The 13-week DS&T Career Development Course is offered twice a year and includes travel to Hawaii, California, and Colorado for briefings and presentations. In addition to studying the missions and functions of the different offices within the DS&T, the course members examine major issues confronting the Intelligence Community, the role of the Intelligence Community in policymaking activities, and the management principles and techniques applied by senior management both within and outside of the Agency.

25X1 [redacted]  
Bill Baker
